# Grace Bay Beach

Every Caribbean island is unique. Whether you've traveled to the Caribbean before, or are planning your first trip, every island offers something special. Each has its own culture, way of life, attractions, and of course beaches. Grace Bay Beach was voted the best beach in the world. Find out why, what it's known for, and how to plan your next trip.

You'll find Grace Bay Beach within the Turks & Caicos Islands. Unsurprisingly, these islands are among the more highly rated Caribbean vacation destinations, down to their natural beauty, picturesque setting, and opportunity for ultimate luxury. The island chain, a British Overseas Territory, is made up of 40 low lying coral islands, with the island of Providenciales (Provo) being the most populated. Provo is home to the famous Grace Bay region and Grace Bay Beach, which is one of the most jaw-droppingly beautiful beaches in the world.
